

Dutch Flat Enquirer.

E. B. BOUST, : : : : EDITOR.

THURSDAY, : : SEPT. 17, 1863.

WAGON ROADS.—The two roads leading by our town towards Nevada Territory, are progressing finely. The Pacific Turnpike which goes by Bear valley and Bowman's ranch on the Henness road will, it is thought, be thrown open for public travel on the first of October. This road is said to be one of the best constructed for freight teams, in the State; and it is claimed will shorten the distance from Sacramento to Virginia City some twenty-five or thirty miles. The California Stage Company will fully stock this road as soon as completed.

The Dutch Flat and Donner Lake road is being constructed with every dispatch possible. This company is taking great pains to make the road a good, substantial one, and so far have succeeded admirably. As far as we have been on the road we must say it is one of the best we ever saw, so far as smoothness and regularity of grade is concerned. We learn that the road is fully completed for the distance of twenty-eight miles above this place. Whether this road will be open for travel this fall we cannot say, but from appearances, should think not. This backwardness in completing the road is not, we think, attributable to any disposition of that nature on the part of those engaged in the work, but is owing to the fact that the men necessary to complete it could not be obtained by the company, notwithstanding the highest wages have been offered for laborers. When, however, the road is completed, it will challenge the admiration of all who may pass over it. Our people should appreciate the efforts of these companies in bringing our town—by the heavy expenditure of capital they have been compelled to make—in such close proximity to what is destined to be the greatest public thoroughfare ever known on this continent. They should, now that an opportunity is offered, connect themselves and business in such a manner as to profit by the immense travel which will inevitably pass by our very doors. Nor are these wagon roads the only incentive to action in an increased spirit of enterprise on the part of our people; the great Central Pacific Railroad passes in sight of our town, bringing with it the advantages and benefits which properly taken advantage of will add millions of dollars to the now comparatively insignificant pitance so miserably guarded by a portion of our citizens. Will you suffer all the chances to pass you without making an effort secure them, thereby enriching yourselves and raising those around you to ease and affluence? If you refuse all the good things which a "blind goddess" in her capricious will is willing to give you, we hope you will live to see the day when you are willing to regret your present supineness and criminal negligence.

MINING ACCIDENT.—We regret to learn that on Thursday last while Mr. Charles Ladd was engaged in putting in a charge of powder in his claim on the Yuba, he was fearfully injured by a premature explosion. His right arm was injured to such an extent as to make amputation necessary; his face and eyes were also injured, but not seriously. He was brought to town on Monday last, and is now doing as well as possible; being comparatively free from pain, and in good spirits.

There is something extremely singular attending this accident, and may serve as a preventive to others of a like nature on the ledge on which this occurred. It appears that after putting in the powder, he was about ramming the wadding down, for which purpose he used a hickory stick, and on the first strike with the sledge the powder exploded. There was no metal used, save the sledge at the end of the rod, and it is supposed that the rock, containing a large quantity of sulphur, on the paper being rammed against the side of the rock caused the sulphur to ignite, and hence the explosion. We know nothing of such matters, and give the supposition as we hear it.

NEW MINISTER.—The new minister, Rev. Mr. Northrup, arrived here last week and entered upon the sacred duties of his office on Sunday last. The sermon delivered by this gentleman was calculated to impress all who heard him with the belief that he comes among us to labor for the spiritual good of the people, and we wish him eminent success in his good work, and bespeak for him good audiences and attentive, thoughtful listeners. Mr. Maddux, our former minister, has been assigned a field of much importance and great labor—Dayton and Gold Hill, N. T.—and we do not doubt but he will be the means of reclaiming many from the error of their ways. Mr. M. is a bold, sincere, earnest advocate of the doctrines of Christianity, yet, meek, kind and affable in his deportment. Just such a gentleman as any community should be proud of.

ON "GAMING."—Our citizens appear fully alive to the importance of securing a slice off the immense loaf that is cooked up amongst the lodges in the mountains here. Scarcely a week has passed, since the first discovery made at Squaw Valley by one of our more companies have been organized at this place for the purpose of delving in the bowels of the mountains for the root of all evil. Nothing can divert the attention of some people from pursuing the "fickle goddess" under every and all circumstances; they appear never to know when they have got enough. There is Earle, and Thomas, and Bradley, and Towle, and about this place, there are secured millions and millions in "feet," yet they are as willing to go into good lands as though they only had one or two hundred thousand dollars at interest. It is astonishing! Now we became satisfied as soon as we were convinced that our possessions in silver, gold and copper mines would realize six hundred thousand nine hundred and twenty (that last twenty we owe now) dollars, we quit, and intend taking a trip to Europe as soon as we "clean up." Those having occasion to correspond with us after the first of next June will please direct their letters to Rome. We do not intend, however, receiving any letters unless they are accompanied with—the cash, six dollars a year in advance.

THE DRAFT.—The papers below inform us that active measures are being taken to commence the enrollment preparatory to the draft in this State. That there will be a draft we believe there is no doubt in the minds of honest thinking men, but whether it is for the purpose of filling up the old regiments at the East or prepare for the defense of our own coast is not yet ascertained. The silly excuses made by the Republican papers before election as to the intention of the government in this matter, were simply meant to deceive the people. The report that five Spanish vessels were making their way up this coast was so silly and puerile that the originators became ashamed of the contemptible humbug before it was a day old; suppose the report to be true, and that these vessels intended an attack on San Francisco, it would still be ridiculous, and would cause about as much anxiety in the minds of our people as though the king of the Cannibal Islands was announced to be on his way, with five dug-outs, to attack New York. The question is, Where is the destination of the men that are to be drafted? If they are to remain on this coast, it is a poor compliment to our people to hold out that they have to be forced at the point of the bayonet to defend their own homes. We incline to the belief, therefore, that the men drafted will be sent East, and it is cruel to attempt to deceive them into a false security. Let them know what is to be their fate so that they can make the necessary arrangements for the support of those they leave behind. Tell us what we are to expect, and like good citizens we will obey the laws. Some consideration is due from the government to its citizens, and we demand to know the intentions of the officers in regard to the people in this respect. We favor no mob or disobedience in any manner to the laws, but at the same time we give notice that we insist on being honestly and fairly dealt with.

ACCIDENT.—On Sunday night, rather late, as James Quick, a resident of this place, was on his way home, he missed his footing and fell—we don't know where or how deep—breaking two or three ribs and his collar bone by his fall. He was found on Monday morning by his friends, in his cabin lying upon the floor.

THE PACIFIC GUARDS. forming a portion of the fourth Brigade of the organized militia of the State will leave here to-morrow morning for the Camp of Instruction near Sacramento, where they will remain for ten days, affording those who may attend an opportunity of being present at the annual fair of the State Agricultural Society. From the great satisfaction expressed by those who attended the Camp of Instruction held in Alameda county last spring we are led to believe that the ranks of the Guards will be well filled when they appear on parade in regimental drill. Bullly for the Guards.

REMARKABLE INCIDENT.—The San Jose Tribune of the 11th instant, gives the following particulars of a young man suddenly acquiring the power of speech. That paper says: "An Indian boy by the name of Joaquin, who had lived for ten years at Mount Diablo, on the ranch of Mr. Francisco Soto, came to San Jose about a year since to live with F. Lightstone, Esq., in the capacity of servant. For the space of eleven years he has been employed in these two places, and during that time was never known to utter a word in Indian or Spanish, always making his wants or wishes known by signs or gestures. A few days ago, Joaquin is between 18 and 20 years of age, and says he never was able to speak before. Many of the Spanish residents of the valley, who have known him from childhood, look upon him with wonder as they listen to his newly acquired gift of articulation."

FREEDOM OF SPEECH AND THE PRESS.—Mr. Verdery Johnson, the great Union leader in Maryland, who was never a democrat, has written a letter to the Concord, (N. H.) democratic celebration, in which he says: "Freedom of speech, and of the press, too, must not be abridged. This is provided for by an express constitutional guarantee, which it is an impeachable offense to disregard. The military, too, should be instructed to conduct the war on the humane principles of the modern laws of war. The burning of private or public buildings where they are not being used by the rebels for military purposes, and the appropriation of private property, except for our own military purposes, must end. To tolerate this is to make an effective restoration of the Union impossible. Such acts of vandalism plant deep into the hearts of the sufferers bitter hostility. In the words of the poets of the heaven—

"Never can true reconciliation grow,
Where wounds of deadly hate have pierced so deep."
Such outrages, too, are bringing upon us the indignation of the world. Slighter enormities of like kind, occurring during the wars of 1776 and 1812, met with our universal reprobation. The burning of the public building in Washington, at the latter period, caused Wellington to blush for the good name of England. So sensible was he of the disgrace, that it is known that he never permitted the subject to be referred to in his presence. And in the war with Mexico, no such outrages were permitted by our gallant leader, Scott; and yet, to our shame, they are now being perpetrated without, so far as the public know, government rebuke. On this day, too, it will be the duty of all political parties to do justice to each other. During the canvass in New York and New Jersey, which resulted in the election of Seymour and Parker, their opponents denounced them as "disloyal and traitors." The last few days have established the gross injustice of the accusation.

THE OPERATIONS OF THE FEDERAL ARMY for the month of July may be summed up as follows: In killed, wounded and prisoners of the rebels, 81,267. Number of successful engagements, 28; three hundred pieces of heavy artillery, and hundred thousand stand of arms taken.

ELECTION.—We give below the result of the election in this State for Governor, as far as heard from. The majority as claimed by the Republicans, it will be perceived is dwindling down, and will probably come down from the present figures. The votes in this county had not been canvassed on Monday. We will endeavor to furnish our readers with the official vote of the county next week.

MARRYING ANOTHER MAN'S WIFE.—An interesting case has come up for examination before Justice Brown, of Stockton in which a man by the name of William Allison, at present a resident of Fizer's precinct, is charged with marrying the wife of John B. Grayson, of Sonoma county. Mrs. Allison, or Grayson, who held a child in her arms, testified that she had been forced by her uncle and step-mother to marry Grayson, in Sonoma county, in the Spring of 1859, when she was but fourteen years of age; that they used threats, in case she refused, to drive her from under the roof which had protected her, out into the world to seek her own livelihood; that she had no friends and nowhere to go, and under these circumstances consented to comply with their wishes; never had regarded her marriage with Grayson as valid; had informed Allison previous to her marriage, that Grayson had been absent from her nearly a year, during which time she had written repeatedly to him, but obtained no answer; had informed him of the circumstances under which she married Grayson; told him this three months before coming to Stockton; told Allison that she had no husband, her having, as she believed, abandoned her. [While the testimony was being given, Grayson asked the witness, "Why did you never tell me you objected to our marriage?" The witness replied, "You know very well I was forced to marry you, and that I could not avoid it."—Here the evidence taking an unexpected turn, the Court stated that it was no time or place for the discussion of matters not relevant to the trial.] The witness, in reply to a question put by the attorney for the State, denied that Grayson was the father of her child; that during the three years she lived in the same house with him, in a sort of half-way house-keeping style, she had constantly in view the circumstances under which she became his wife; that when he left her he also left two horses, one of which she sold—she having left her nothing for her support during his absence; sold the horse to obtain funds with which to pay doctor's bills, but did not pay these bills, as she did not deem it her duty; sold the horse three weeks before coming to Stockton and expending the proceeds of the sale, fifty dollars, in articles of clothing for herself and child; resided during Grayson's absence, at her uncle's; had plenty to eat by working hard and getting nothing for it; saw defendant for the first time in December last, and came to Stockton with him in June. The Court held Allison to answer in the sum of one thousand dollars in default of which he went to jail.

ABOUT THE DRAFT.—We state on ample authority that the Government does not intend ordering a draft at this time on the Pacific coast, and that in no event troops will be sent from California to the East. The movement mentioned yesterday, is only preliminary to State defense in case of a foreign war, and even for this purpose no draft at present will be ordered.

What is your ample authority, Mr. Republic? The dispatch was sent through only yesterday that a draft had been ordered, and the State distracted, and there has been no dispatch sent over the wires contradicting it. It is much better to let the truth be known at once, and thus give those who are opposed to a draft time to acquiesce in it; this attempt of the Republic to make people believe that there is no draft intended to be made in this State, is simply ridiculous. The Government never would have ordered the draft if it had not intended to enforce it.—S. F. Journal.

WATCHMAKER AND JEWELER.—P. W. Bergants having opened his store on Main street, is now prepared to do all work in his line, on the shortest notice and at reasonable charges. All those having work to be done will do well to give Mr. B. a call.

THIEVES.—We hear that a cabin in the rear of Morris' livery stable was robbed one day this week of one or two pairs of blankets and several other articles of small value. Our miners should secure their cabins before leaving them for the day. The most effectual way, however, is to keep a double barreled shot-gun around well loaded, and to shoot it off in the direction of these light-fingered gentlemen.

TOWNSHIP BOUNDARIES.

As there has been considerable dispute and any amount of uncertainty in relation to the different township lines in this county, we publish the following which we find in the Placer Herald of the 12th instant. We presume those given are correct.

The Board of Supervisors on the 8th of May, 1861, declared the following to be the boundaries of the several Townships of Placer county:

TOWNSHIP No. 1. Is bounded as follows: Beginning at a point on the North Fork of the American river, situated about half a mile above Dotson's Bar, thence west along the second section line north of the base line, between Congressional Townships 10 and 11 north, to the western boundary line of Placer county, thence along said boundary line to the south-west corner of the county, thence along the southern boundary of the county to the American river, and thence up said river to the place of beginning.

TOWNSHIP No. 2. Is bounded as follows: Commencing at the corner formed by the intersection of the lines between Townships 11 and 12 North, and Range 6 and 7 East, thence North along said Range line to Bear river, thence up said river to the line between Congressional Ranges 7 and 8 East, thence south to the line between Congressional Townships 12 and 13 North, thence East to the first section line East of said Range line; thence South along said section line to Dutch Ravine; thence down said ravine to the turnpike road leading from Auburn to Sacramento, thence along the ridge dividing the waters of Antelope and Dutch ravines to the place of beginning.

TOWNSHIP No. 3. Is bounded as follows: Commencing at Whiskey Bar Bridge on the North Fork of the American river, thence up said river to Kelley's Bar, thence in a north-west course to Bear river, thence down said river to the line between Congressional Ranges 7 and 8 East, thence South along said Range line to the line between Congressional Townships 12 and 13 North, thence East to the first section line to a point west of Whiskey Bar Bridge, and thence East, about half a mile to the place of beginning.

TOWNSHIP No. 4. Is bounded as follows: Commencing at Kelley's Bar on the North Fork of the American river, thence up the middle of said stream to Eucler Bar, thence up the middle of the South Fork of said stream to its source, thence due East to intersection of Eastern boundary line of State, thence North-east to the North-east corner of Placer county, thence along said county line to a point on Bear river, leading North-west from Kelley's Bar, thence in a South-easterly direction to the place of beginning.

TOWNSHIP No. 5. Is bounded as follows: Commencing at the mouth of Volcano Cañon, thence up the mountain side on the West side of said Cañon extending on the East side of Pine Flat through the Gap on "Duel Point" crossing the road to Michigan Bluff between the "Forest Shade" and "Hath about 200 rods East of "Forest Shade Hotel," thence to the top of said mountain ridge to a point 35 rods East of the Mayflower Mill, thence to a point 40 rods east of Brushy Saw Mill, thence on a line bearing north 13° (magnetic variation 15° 23' east) to Shurt Tail Cañon, along which line the trees are blazed, thence down Shurt Tail Cañon to the North Fork, thence down the North Fork to its junction with the Middle Fork, thence up the Middle Fork to the place of beginning.

TOWNSHIP No. 6. Is bounded as follows: Commencing at the mouth of El Dorado Cañon on the Middle Fork including 60 feet in width of the East bank of said Cañon, thence up said Cañon to its Forks, thence up the North Fork of said Cañon to a point about half a mile East of the Forks House, thence in a northerly direction to a point on Humboldt Cañon, between the Pioneer Quartz Mill and Damascus, nearly opposite the Quartz mill, thence across the Divide to the branch of Shurt Tail Cañon on which Vick's Ranch is situated, thence down said branch to Main Shurt Tail Cañon, thence down said Cañon to the mouth of Vick's Ranch, thence up the North Fork of the American river, thence up the middle of Shurt Tail Cañon to the forks thereof, thence up its North Fork, and branch upon which Vick's Ranch is situated, to its head, thence across the Divide to the first point on Humboldt Cañon, above the Pioneer Quartz Mill, thence to the center of said point to Humboldt Cañon, thence down the bed of said Cañon to its junction with the North Fork of the North Fork of the American river, thence down said North Fork to its junction with the main North Fork at Eucler Bar, thence down said North Fork to the place of beginning.

TOWNSHIP No. 8. Is bounded as follows: Commencing at the junction of Humboldt Cañon and the South Fork of the North Fork of the American river, thence up said South Fork to its source, thence to Eastern boundary of State, thence along the State line in a Southerly direction to the line between Placer and El Dorado counties, thence up said North Fork to the mouth of El Dorado Cañon, thence following the line of Township No. 6, to the point at which T. No. 6 and 7 corner near the Pioneer Quartz Mill on Humboldt Cañon thence down said Cañon to the place of beginning.

TOWNSHIP No. 9. Is bounded as follows: Commencing at Whiskey Bar Bridge on the North Fork of the American river, thence west about half a mile to the first section line East of the line between Congressional Ranges 7 and 8 East, thence North along said line to Dutch Ravine, thence down said Ravine to the turnpike road leading from Auburn to Sacramento, thence along the ridge dividing the waters of Secret and Dutch Ravines continuing down the ridge dividing the waters of Antelope and Dutch Ravine to the corner formed by the intersection of the Congressional lines between Townships 11 and 12 North, and Ranges 6 and 7 East, thence South along said Range line to the second section line North of the line, between Congressional Townships 10 and 11 North, thence South along said line to the American river, and thence up said river to the place of beginning.

TOWNSHIP No. 10. Is bounded as follows: Commencing at the point where the western boundary line of Placer county intersects Bear river, thence up said river to the line between Congressional Ranges 6 and 7 East, thence South along said line to the second section line North of the line, between Congressional Townships 10 and 11 North, thence South along said line to the Western boundary of Placer county, and thence along said county line to the place of beginning.

TOWNSHIPS SIX, SEVEN AND EIGHT. The Board, at the November Term 1861 made the following alterations between the Townships, as follows: Commencing at the main Road leading from Iowa Hill to the Fork's house, crosses the branch of Shurt Tail Cañon on which Vick's Ranch is situated, thence up the center of said Road to the Fork's House, thence up the main Divide Road to Indian Springs, thence in a Northerly direction to Italian Bar, on the South Fork of the North Fork of American river, thence down said South Fork to Eucler Bar, all other lines of said Township remaining unaltered.

TOWNSHIPS SIX AND EIGHT.

At the February Term, 1862, the Board of Supervisors altered the line between these two Townships, to be as follows: Commencing at the junction of El Dorado Cañon with the North Fork of the American river, and running due South to the Middle Fork of the South Fork, thence due South to a point known as "Kankakee Joe's Ferry," on the South Fork of the Middle Fork of the American River.

MR. VALLANDIGHAM AND THE MORGAN RAID.—The radical newspapers feed their readers daily upon the silliest notions. Just now they are trying to make it appear that Mr. Vallandigham, while exiled at the South communicated such information to Gen. Morgan as encouraged him to undertake his recent disastrous raid. Gen. Burnside has not done half so much for our arms as he who persuaded Morgan to cross the Ohio; but that Mr. Vallandigham did so none but shallow and credulous fanatics believe.

Mr. Vallandigham, when in Newark, New Jersey, last February, gave his only invitation to Southern generals: "If they invade us we will write for them precisely the same history they have written for us for two years past, and give them Bull Run upon our own soil."

It is a curious fact, by the way, that Morgan, after traveling a thousand miles, and more in General Burnside's department, and, indeed, after passing within seven miles of the ferocious warrior's headquarters, was at last captured out of his department, and in Mr. Vallandigham's native county, six miles from the township of Columbia county. If Mr. V. was his pilot, he at least piloted him to the proper place for his capture.

For Justice of the Peace,
E. B. BOUST, of Dutch Flat.

WATCH AND CLOCKMAKER,
MAIN STREET, DUTCH FLAT.
P. W. BERGANTZ.

HAVING OPENED HIS SHOP NEXT door to Hudepohl & Co., is prepared to do every description of work in his line in the best manner.
JEWELRY made and repaired on short notice at reasonable prices. Those having work to be done need not give me a trial. All work warranted.
Sept. 17-46.

BOARD OF EXAMINERS.

WE the Board of Examiners created by an Act for the better protection of the Treasury of Placer county, approved April 6th 1863, do hereby certify that in pursuance of our duties as set forth in said Act of the Legislature of the State of California, we have examined the books and papers in the office of E. M. Barnard, the Treasurer of Placer county, and find that the same should be on the 14th day of September A. D. 1863, on the close of the official business of said day the amounts in the several county funds as specified below, namely:

County Fund.....	\$13,688.62
Redemption do.....	895.92
Hospital do.....	1,916.00
School do.....	163.18
School Districts do.....	6,272.31
Road do.....	1,882.43
County Judges' Fund.....	133.13
Indian Fund.....	37.80
Estate of Deceased Persons.....	120.84
Total amount.....	\$25,112.43

And we further certify, that we have counted the money in the Treasury of Placer county, and find that there is in said Treasury, in United States gold and silver coin, the sum of Twenty-five thousand four hundred and thirteen 43/100 dollars.
H. P. HILLMAN, County Judge.
J. O. HAMILTON, Dist. Attorney.
Sept. 17-46.

SUMMONS.—State of California, County of Placer.—Before E. B. Boust, Justice of the Peace, Township No. 4. The People of the State of California to C. W. MILLER and J. H. BORE, greeting: You are hereby summoned to appear before me, at my office in Dutch Flat, Township No. 4, county of Placer, on the 12th day of December, A. D. 1863, at 10 o'clock, A. M., to answer unto the complaint of Hugh Gallagher, wherein he sues you for the sum of Two hundred dollars, and eighty-four dollars interest, due on a promissory note drawn by you on the 11th day of August, 1862, for the sum of three hundred dollars, and payable to plaintiff, bearing interest at the rate of three per cent. per month, upon which note there appears a credit of one hundred dollars, dated October 30th, when judgment will be taken against you for said amount together with costs and damages, if you fail to appear and answer. To the Sheriff or any Constable of said County, Make legal service and the return hereof, given under my hand this 7th day of September, A. D. 1863.
E. B. BOUST, J. P.
Sept. 17-46.

The proper affidavits having been filed in my office by the above named plaintiff, and it appearing to the court that he has a case of action against the above named defendants, it is ordered that summons be made by publication in the Dutch Flat Enquirer, a newspaper printed in the town of Dutch Flat, Placer county, for the space of three months, at least once a week. Given under my hand this 7th day of Sept., A. D. 1863.
E. B. BOUST, J. P.

CONSTABLE'S SALE.—By Virtue of an execution to me delivered and directed on the 13th day of August A. D. 1863, issued out of the court of E. B. Boust, a Justice of the Peace in and for Township No. 4, County of Placer and State of California, on a judgment rendered in said court on the 13th day of August A. D. 1863, in favor of Jacob Kenzley and against George Hahn for the sum of ninety dollars, and for costs of suit taxed at eighteen dollars, I have this day levied upon and will expose to public sale, to the highest bidder for cash, in front of the Justices, office in Dutch Flat,
On Thursday, September 17th, A. D. 1863, at the hour of 2 o'clock, P. M., all the right, title, interest and claim which said George Hahn had in the following described property, to-wit: One undivided third of a certain piece of ground, lying, being and situated on the North Fork of the American river, in Township No. 4, Placer county, Cal., said ground being known as the old Trask claim, commencing at a live oak tree on top of a high gravel bank on the east side of said river, thence extending up said river the distance of twelve hundred feet (1,200). Also, one undivided third of a mining claim known as the McKee claim, said claim being situated on the North Fork of the American river, in Township No. 4, County and State aforesaid, commencing at a white oak tree on the west bank of said river, one hundred and fifty feet above Placer claim, thence up said river to Eckert & Co.'s claim. Also, one undivided third of a mining claim known as George Hahn & Co.'s claim, said claim being situated on the North Fork of the American river, in Township No. 4, County and State aforesaid, commencing at a white oak tree on the west bank of said river, one hundred and fifty feet above Placer claim, thence up said river to Eckert & Co.'s claim. Also, one undivided third of a mining claim known as George Hahn & Co.'s claim, said claim being situated on the North Fork of the American river, in Township No. 4, County and State aforesaid, commencing at a white oak tree on the west bank of said river, one hundred and fifty feet above Placer claim, thence up said river to Eckert & Co.'s claim. Also, one undivided third of a mining claim known as George Hahn & Co.'s claim, said claim being situated on the North Fork of the American river, in Township No. 4, County and State aforesaid, commencing at a white oak tree on the west bank of said river, one hundred and fifty feet above Placer claim, thence up said river to Eckert & Co.'s claim. Also, one undivided third of a mining claim known as George Hahn & Co.'s claim, said claim being situated on the North Fork of the American river, in Township No. 4, County and State aforesaid, commencing at a white oak tree on the west bank of said river, one hundred and fifty feet above Placer claim, thence up said river to Eckert & Co.'s claim. Also, one undivided third of a mining claim known as George Hahn & Co.'s claim, said claim being situated on the North Fork of the American river, in Township No. 4, County and State aforesaid, commencing at a white oak tree on the west bank of said river, one hundred and fifty feet above Placer claim, thence up said river to Eckert & Co.'s claim. Dutch Flat Enquirer.

STATE NEWS.

A SPANISH fleet of eight war vessels is said to be coming up the coast for the purpose of co-operating with the French against Mexico. It is reported that the fleet will take a station within a convenient distance of San Francisco. Is there "something in the wind." The above is a Republican canon.

REEST River must be a lively region for pistol exercises if one is permitted to draw his deductions from the local organ of that country. One Taylor, a few days ago, was run off his ledge by a party of miners. He engaged a crowd; had one of his horses shot and killed, and was wounded himself. About the same time, one Madame York "shot a glorious son of York," named John and husband of the Madame aforesaid, inflicting a severe and dangerous wound.

Two convicts made their escape, Saturday last, from our State Prison at San Quentin; one is Charles Brown, alias Duke, "the duck hunter," the other Romero Ramirez. Both were seven years men, sent from El Dorado county, two years since, for grand larceny. As usual, there is great complaint of the manner in which the State Prison affairs are managed.

Judge Robert Robinson, of Sacramento, Provost Marshal of the Middle District of this State, is making arrangements to have the work of enforcement completed within twenty or thirty days after its commencement, for the making out of which numerous deputies will be required.

The skeleton of a man was found standing upright lately among the cargo of an Australian ship on her arrival at London. He had evidently tried to get a free passage, and was walked up by the cargo.

SHERIFF Johns, of Tehama county, who was severely wounded in the leg by a pistol ball on Thursday last, and who is in this city under medical treatment, it is thought will be able to submit to an amputation of the injured limb, says the S. F. Call.

The game law expired on the 15th inst., and hunters can blaze away at their pleasure until the fifteenth day of next March, when this law goes into effect again.

The farmers in Shasta county, says the Yreka Journal, have raised splendid crops of grain this season. The abundant harvest has overstocked the market and reduced the prices, while the expenses of harvesting has been greater than previous years, on account of the scarcity of labor.

A Mr. LINDELL, proprietor of a flourishing mill at Union City, Alameda county, had both of his legs broken, a few days ago, by being caught and carried around the main shaft of the mill which revolves about sixty times a minute.

Two men, named John Haight and John Nugent, had an altercation at the New Almaden Mine, on Tuesday last week, when Haight struck Nugent a blow on the side of the head, dislocating the neck, and killing Nugent instantly.

It is stated that it will not be long before all signs of the late fire in Virginia City are entirely removed. A number of houses have already been directed upon various portions of the burnt district; others are now building, and the rubbish is being removed from nearly all the lots.

The Democracy have gained over 200 votes in Trinity county over the vote last year. Jenison's majority over Rhodes, for Assembly, is eighty-eight. In Colusa, which forms a part of the same Legislative District, Rhodes has eighty-five majority, electing Jenison by three votes.

The Sacramento Republican says, by way of variety, we are to have a prize fight during the State Fair—no connection with the State Agricultural Society. The combatants will be Ned Ryan and George Taylor both of whom are under trainers, the former under the care and supervision of Billy Pratt, and the latter under the eye of Charlie Salmon. The match is for \$200.

The parties connected with the pirate Chapman were yesterday allowed to give bail for their appearance, in sums as follows: Ringley Great-house, Ashbury Harpending and Alfred Rubery, in the sum of \$15,000 each, with sureties for double that amount, and the remainder in the sum of \$10,000, with like sureties. Greenhouse gave bail yesterday, with Lloyd Tevis and Seno (of Seno judgment fame), as sureties. Tevis is said to be a relative of Greenhouse by marriage. It is considered doubtful if any of the balance will be able to furnish bail, as they do not appear to be blessed with friends and acquaintances who are able to give the necessary securities. It will require bonds to the amount of \$100,000 to bail those now in confinement.

A LITTLE fellow named James Riley, aged about 11 years, on Saturday strayed away from his parents' house reached the corner of Washington and East streets. While playing with a number of other children he fell overboard and would have drowned had he not been rescued by an Italian fisherman named Peter Mal, who plunged into the bay and seized the little fellow as he was sinking for the third time.

An old man named Hartford, who dwells in a caboose at the corner of Fremont and Harrison streets, has of late been greatly annoyed by mischievous urchins, who congregate upon the bluff overlooking his cabin and amuse themselves by hurling stones down upon him. Yesterday evening while a number of boys were thus engaged he came out with a double-barreled shot-gun and fired into the crowd. The shot took effect in several of the boys, causing them to scamper away in great haste. An officer was sent out to arrest Hartford upon a charge of assault with a deadly weapon.

On Thursday last, at Marysville, a man named Benjamin, while intoxicated, injured himself severely by jumping from the Feather river bridge to the bank, a distance of twenty feet. He was taken to the County Hospital.

The corner stone of the Yolo County Court House, at Woodland, will be laid on Saturday the 25th inst., with Masonic ceremonies.

A cow belonging to Patrick Lowley, of Vallejo township, a few days since, dropped three fine healthy calves. Mr. L. boasts of having upon his place a sheep that in one year gave an offspring of seven lambs.

A DISPATCH of the 7th, from Oroville, says Luke Goodhue, head Sawyer in Garrott's saw mill, was accidentally killed by falling on the saw. Both hands and the back part of his head were torn off.

MR. LINDELL, one of the losses of the Union Flouring Mill, Centerville, Alameda county, had both his legs broken on the 4th inst., by being caught in the belts of the main shaft.

The steamer on Saturday carried away \$13,540, contributed on election day to the Sanitary Fund. The amounts contributed in several counties, have not yet come to hand.

AUBURN, September 1st, 1883.

MORRIS ISLAND.—The Savannah Republican gives the following description of Morris Island:

"Morris Island, the great prize for which the enemy is now struggling, under the belief that it is the key of Charleston, the reader is aware is the outer strip of land lying directly on the ocean. It is some three and a-half miles in length, and its northern end is crowned by Cummings' Point battery, the goal which is aimed at by the enemy, as it bears directly on Fort Sumter and the channel leading to the city. At the southern extremity of the island is another battery, pointing out towards the north end of Folly Island, where the Yankees have been engaged for many months and constructing heavy works. The lower battery has been captured, thus giving the enemy the possession of the lower end of the island. Battery Wagner is a strong earth-work, near the middle of the island, which is very narrow, and extending nearly across it. Its guns point southward, and it must be reduced before they can reach Cummings' Point, which could be readily taken in the rear."

An officer of the Army of the Potomac, of undoubted veracity, has written a private letter from which the following is an extract:

"Let me tell you that General McClellan was reported to our troops July 1 as Commander-in-Chief in place of General Halleck. It was received by the troops with the most enthusiastic cheering and beating of drums on the march that evening towards Gettysburg. They thought with that impression at Gettysburg, and officers say McClellan's ghost fought the battle of Gettysburg."

The authorities of San Francisco have leased the Union Hotel, to the late and late, for the purpose of obtaining more room for the various officers, and to facilitate the transaction of public business.

JOHNSTON & CO., Forwarding and Commission Merchants, AND DEALERS IN California Produce Auburn Station, Placer Co.

E. D. DOST, Local Agent.

MOTHERS! Mothers! Mothers! Don't fail to procure MRS. WINSLOW'S SOOTHING SYRUP for children teething.

This valuable preparation is the prescription of one of the best female physicians and nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve Griping in the Bowels, and Wind Colic.

We believe it the Best and Surest Remedy in the World, in all cases of Dysentery and Diarrhoea in children, whether it arises from Teething or from any other cause.

Full directions for using will accompany each bottle. None Genuine unless the fac-simile of CUTLER'S & PERKINS, New York, is on the outside wrapper. Sold by all Medicine Dealers. Principal office, 48 Dey street, New York. Price only 25 cents per bottle. REDINGTON & CO., 416 and 418 Front street, San Francisco, Agents for California. aug. 6-6m

A SURE THING.—Dr. J. C. Young, upon the receipt of one dollar, will send to any part of California, Nevada Territory, Oregon, or Washington Territory, a prescription, with full and complete directions, that will secure the possessor against the possibility of any Private Complaints. Very simple, very safe, and very sure. It cannot fail in its action.

Having been very successful in his profession, and accumulated a fortune in it is State, the Doctor wishes to devote his time to the interests of mankind generally, and to the rising generation in particular, that they may come into the world at least, blessed with pure and uncontaminated blood, a good constitution, a fortune in itself, and perfectly free from that scourge of the Age, Hereditary Venereal. He is thus induced to offer his valuable prescriptions for an amount simply sufficient to cover absolute expenses.

Dr. J. C. Young has practised in this city for upwards of thirteen years, and his constant success has qualified him to prescribe remedies that are positive in curing and preventing the cure of the venereal. He offers his services as a guarantee, and pledges his professional reputation upon the efficacy of the articles administered.

Address, (enclosing a dollar, with stamp to pay return postage), Dr. J. C. Young, 615 Commercial street, opposite the Mint, San Francisco. N. B.—Those already afflicted are urged to read the Doctor's advertisement in another column, in which he pledges himself, by his motto, no cure, no pay, to fulfill his obligations. Read and consider.

Hotel keepers, families or miners supplied with the best quality of pork, for packing or cooking, in quantities to suit, by immediate application, varying from 10 to 500 lbs. F. GROES, Placer Market. Jan. 1-4f

Dutch Flat Saw Mill.

THE ABOVE SAW MILL being the oldest established mill now in operation in the vicinity of Dutch Flat, having been lately repaired, is now capable of cutting lumber equal to the most celebrated mills in California. We have on hand a general assortment of seasoned and green lumber, hard and soft lumber, and having

Reduced the Prices! to correspond with the times, will sell as low if not a little lower than any other Saw Mill in this vicinity. We are now receiving in the yard a large and superior lot of saw logs, and can furnish lumber with dispatch of all usual dimensions, varying in length from 10 to 30 feet.

Being situated within a few hundred yards of Dutch Flat, convenient to most of the valuable mining claims, offer superior inducements to

Miners and Builders Who will find it to their interest to give us a call before purchasing elsewhere. Lumber delivered to any point within ten miles. DUTCH FLAT, June 24th, 1880. 4f

HAIR DRESSING SALOON AND Barber Shop.

Next Door below the Post Office, Main Street, Dutch Flat.

THE PROPRIETORS RESPECTFULLY ANNOUNCE to the citizens of Dutch Flat and vicinity, or strangers visiting this place, that they cannot but be gratified to receive the patronage of

Hair Dressing, Hair Cutting, Shampooing and Shaving, by any artists on the Pacific coast, and guarantee entire satisfaction to all who favor them with their patronage. November 20-4f

SAFES! SAFES! F. TILLMAN,

No. 90 BATTERY STREET, SAN FRANCISCO.

SOLE AGENT for TILLMAN & McALLAN'S celebrated Fire Proof and Burglar Safes. This Safe is well known in the market for its unsurpassed fire-proof quality, having withstood in California, as well as in the East, the hottest fires known. We can refer to endless certificates from parties in our mining towns, where these Safes have been subject to the most severe tests of their fire-proof qualities. The Safes are secured by our Combination Lock. This Lock is in every respect the most secure one in use; it requires the key and combination to open the Safe. If the key should be abstracted from the owner, it would be perfectly useless to the possessor without his knowing the combination, or mental key, which the owner carries in his head. To those who want of a reliable safe we offer the above cheaper than any other in the market. Address, F. TILLMAN, 90 Battery st. 6m

THOMAS BOYCE'S ADVERTISING AGENCY.

North-east corner of Montgomery and Washington streets, San Francisco. Agent for the following papers:

Enquirer, Dutch Flat. Butte Record, Oroville, Republican, Shasta, Sierra Citizen, Donnellville, Tribune, San Jose, Union Democrat, Sonoma, San Andreas Independent, Amador Sentinel, Jackson, Mountain Messenger, La Porte, Crescent City Herald, Mariposa Democrat, Pacific Sentinel, Santa Cruz, B. LANKS OF EVERY DESCRIPTION FOR sale at the ENQUIRER OFFICE.

Reduction in Prices to Subscribers.

AGRICULTURAL.
TO CONTRIBUTORS: The proprietor of the Enquirer will send a copy of the paper, gratuitously, for one year, to each person becoming an occasional correspondent upon Mining, Agricultural, Horticultural, Floricultural, or Stock Raising pursuits.

THINNING FRUIT.
There are many persons, not professional fruit-growers, who permit their trees to over-bear. From this cause the dwarf pear is liable to suffer more than any other fruit. Dwarf pear trees, to remain permanently healthy and productive, require a good soil and continued care and cultivation in order to insure an annual growth of wood, without the tree will only form fruit spurs, and will begin to continue to decline, until after a few years it will finally die from exhaustion. Probably one-half of the dwarf pear trees that are annually sold, from want of proper care are suffered to get permanently into this habit, and make no healthy growth of wood, and finally bear themselves to death in the course of a few years. No tree should be permitted to bear fruit until a vigorous healthy growth of wood is established. Most trees are inclined to set more fruit than they can ripen. But inexperienced cultivators are reluctant to remove any portion of it. The consequence is that the whole crop is small and insipid, and the tree is greatly checked in its growth and healthfulness. The number of specimens permitted to remain upon a tree, should be in proportion to the size and ability of the tree to fully develop and mature in the greatest perfection. In reducing the number of fruit upon a tree to one-third or one-half it must not be expected that the quantity of mature fruit is reduced to the same proportion. The effect of proper thinning is to cause the remainder frequently to grow to double the size, and to improve the quality of the fruit in even a greater proportion. A peck of well-grown, fully matured fruit is worth a bushel of that which is half-grown, such as we frequently see upon an overworked tree.

Although fruit from dwarf pear trees can be thinned with less inconvenience than either peaches or apples from standard trees, the thinning of these in small orchards is practicable, and the quality of the remaining fruit may be greatly improved by it. Peach trees grown with low heads are generally within reach from a step-ladder, and render the labor comparative easy.

There are many varieties of apples that bear their fruit only in alternate years, and these are liable to overbear and produce in such excess that the vigor and the health of the trees are sometimes impaired, and the fruit is often small and of inferior quality. The cause of this habit of overbearing in alternate years in certain kinds of apples, is owing to the supply of ascending sap being so completely appropriated by the growing fruit that there is not enough returned to form fruit spurs for the following year, and it requires another season's growth for the tree to recuperate and be able to mature another crop. Annual bearing trees generally produce the largest and best matured fruit, because such are not so liable to overbear. The habit of some of the varieties of apples which bear their fruit only in alternate years, may be thinned the fruit, be so changed as to cause them to become regular annual bearers, with a decided improvement in the quality of the fruit.

PEBBLED GRAPE HINTS.
In the June number of the Gardener's Monthly, we find the following hints relative to the care of grapevines:

Grapes coming in bearing should not be permitted to perfect large crops of fruit while young. It is excusable to fruit a bunch or so on a young vine, just to test the kind, but no more should be permitted till the vine has age and strength. Vigorous growth and great productiveness are the antipodes of the vegetable world. Encourage as much foliage as possible on the vines, and aim to have as strong shoots at the base as at the top of the cane, this can be done by pinching out the points of the strong shoots after they have made a growth of five or six leaves. This will make the weak ones grow stronger. Young vines grow much faster over a twiggy branch, stuck in for support, than over a straight stick as a trellis, and extra fine branches of grapes are desired, pinch back the shoot bearing it to about four or five leaves above the bunch. This should not be done indiscriminately with all the bunches. Too much pinching and stopping injures the production of good wood for the next season. These hints are for amateurs, who have a few vines on trellises; for large vineyard culture, though the same principles hold good so far as they go, they will vary in their application.

Grapes in cold climates will not be of a size fit for thinning. In those cases where the bunches are intended to hang long on the vines, they should be thinned out more severely than those expected to be cut early. A close, compact bunch favors mildew and early decay.

Fine, rich color is always esteemed as one of the attractions of a fruit, and is a judge of the excellence of a fruit. Sunlight is of first importance; but it is not generally known that this is injurious when in excess. In a dry atmosphere, with great sun-heat, where the evaporating process goes on faster than the secretory principle, what should become a rich rosy blush in a fruit is changed to a sickly yellow, and the rich tinge of a grape becomes a foxy red. Some grape growers of eminence, in view of these facts, shut their vineyards during the coloring process; but, others, instead, keep atmospheres as close and moist as possible. The latter course detracts from the flavor of the fruit. The best plan is that which combines both practices.

"PINING" MANURE.
An English gardener, of the writer's acquaintance, makes a great deal of what he calls "pin-ing" manure. He means breaking up the lumps, tearing in pieces the roots, straw, and all, and using it into such a fine state that it can be thoroughly mixed with the particles of the soil. Having broken it up, he mixes it with ashes, leaves, sawdust, tanbark, and all the refuse of his garden, laying it up in thin layers. When it has become partly decomposed, he overhauls it, turning it over with a shovel, and making it one homogeneous mass. After the heap has lain a few months, it gets another working, when it is thoroughly "finned," and ready to use anywhere. He is a very successful gardener, and ascribes no small part of his success to this careful preparation of his manure. Farmers and others may learn a hint from this example. It is plain that coarse, lumpy manure, cannot benefit land as much as that which is broken up and finely diffused throughout it. One reason why liquid manure and guano act so effectively, is because they are so minutely divided among the soil.

SALTING STOCK.—The American Stock Journal says, "Probably we do not know all the uses of salt in the animal economy; but a few are obvious. It acts beneficially upon the liver, yields a supply of soda to the bile, and gives increased nutritive power to food. It acts as a vermifuge, keeping the bowels of stock free from worms, and gives increased tone to the stomach. It tends to prevent rot in sheep. As to the amount and time of giving it, farmers disagree. Some are accustomed to salt their stock regularly once a week. Many successful farmers keep salt within reach of their stock, believing that they will eat only as nature requires."

COFFEE CULTURE.—Dr. Courier, of Newport the Boston Herald says, has Java coffee growing in his garden, and he declares that it is less susceptible to frost than beans, tomatoes or corn.

MISCELLANEOUS ADVERTISEMENTS.

HALL'S SARSAPARILLA,
Yellow Dock and Iodide of Potass.

This celebrated preparation has stood the test of six years with the California public, and is justly considered as a community the most intelligent in the world—during which period we are proud to say it has given more satisfaction—It has become the household remedy for Californians particularly, who, from much exposure, bad food, imperfect shelter and irregular habits, suffer more from

RHEUMATISM
Than any community in the world; and we are safe in saying that as a rule, California Rheumatism cannot be cured thoroughly without the use of

HALL'S SARSAPARILLA,
It is the only preparation that will cure Rheumatism, as thousands can testify who have tried the medicine of the best Doctors in the country, without receiving any benefit therefrom. It all cases it gives immediate relief when taken as per directions on the bottle.

FEMALES
In delicate health would do well to try the virtues of this remedy, as it insures a peculiar beneficial influence upon the vascular system not obtained by any other remedy. It quickly removes from the blood and other fluids the impurities of unhealthy secretions, which engenders a long train of diseases, such as Scalds, Ulcers, Sores, Blisters and Pimples on the face and body, Humors, Pustules, Sores, Tumors, Rose, Erysipelas, Tetter, Scald Head, Swelled Neck, Liver Complaint, Lumbago, Rheumatism, Sore Eyes, Gout, Cancer, Enlargement of the Ovaries, and Diseases of the Heart, are cured by the renovating action of this truly valuable medicine. It acts like a charm, purifying the blood of all morbid and corrupt matter, and at the same time strengthens and invigorates the whole system. Said Rheumatism will positively yield to the medicinal powers of this remedy, in conjunction with Hall's Rosemary Cerate, it has cured cases of over twenty years standing, the disease covering nearly the whole surface of the body.

MERCURIAL DISEASES
and all diseases arising from lead, mercury, and arsenic, such as swelling pains in the bones, dimness of sight, loss of power, and worst of all, mercurial Rheumatism, are relieved by one bottle of this remedy. Night sweats, wasting of flesh, spitting of blood, habitual constipation, and piles—humors can testify to the efficacy of Hall's SARSAPARILLA, Yellow Dock and Iodide of Potass in the above named diseases. It increases the appetite and its flesh, gives a healthy tone and vigor to the whole system, building up a new constitution. As the constitution is the blood and this remedy thoroughly purifies, cleanses, and purges it of impure matters, and at the same time stimulates to healthy action the whole Visceral System, which is engaged in the manufacture of the blood, hence the health of the whole system will follow, and

LONG LIFE
with a healthy and cheerful mind—rare indications of a healthy body—can be obtained by the most delicate person, by thoroughly purging the blood in the Spring and Fall of the year, with

HALL'S SARSAPARILLA, YELLOW DOCK AND IODIDE OF POTASS.
Imitations.
Owing to the great and unparalleled success of the remedy, hundreds of unprincipled persons seek to palm off on the public, worthless trash called by the same name. The Genuine Hall's SARSAPARILLA contains neither opium, mercury or arsenic. Sold by Druggists and Dealers everywhere for \$1, and by the proprietors.

DR. WM. HALL'S BALM FOR THE LUNGS IS HIGHLY RECOMMENDED BY CITIZENS WHOSE NAMES AND RESIDENCES WILL BE FOUND IN THE PAMPHLETS, GIVING EVIDENCE OF ASTONISHING CURES OF CONSUMPTION, BY USING THIS MEDICINE GIVE IT A TRIAL. REDINGTON & CO., AGENTS, 416 AND 418 FRONT STREET, SAN FRANCISCO.

IN TIME OF HEALTH
PREPARE FOR SICKNESS.—It is preposterous to think that because we are in health, disease will never overtake us. How many have gone forth in the morning and returned home to lay down upon beds of sickness for months! We would remind our readers, that, for a family medicine, nothing equals SCOVILLE'S BLOOD AND LIVER SYRUP. Of Humors it is a sure exterminator. Scrofula and Cancer, Rheumatism and Neuralgia, are all cured by this magical remedy.

REDINGTON & CO.,
Agents, 416 and 418 Front street, San Francisco. dec-6m

BROWN'S
BRONCHIAL
TROCHES
Few are aware of the importance of checking a Cough or "croup" in its first stage; that which in the beginning would yield to mild remedy, if neglected soon attacks the lungs. "Brown's Bronchial Troches" are a most valuable article, especially so at this season of the year, when Croup, Croup, Bronchitis, Influenza, Hoarseness and Sore Throat are so prevalent. The Troches give sure and almost immediate relief. Sold by all Druggists in the United States, at 25 cents a box.

REDINGTON & CO.,
Nos. 416 and 418 Front streets, San Francisco, General Agents.

TO THE PEOPLE OF THE
State of California, Oregon, and adjacent Territories:

THE SUBSCRIBER ONE OF YOUR EARLIEST citizens of California, and for the most of his time engaged as a Journalist, and particularly of late in a Journal devoted to the chief resources of the Pacific States, respectfully submits the following plan and proposition for the purpose of bringing forth the people of the Pacific States, and a challenge to their chief resources, the establishment of a factory, the occupation of the millions of acres of arable land now lying dormant, and to work our mines. The benefit accruing to our Government—to the marine conveyances—the merchant—the manufacturer, the agriculturist, and the professional community cannot be too fully appreciated. The facilities are offered to such emigrants, and according to the terms of our laws regarding such, that he who has not his three years of his time to collect and compile in the German and French languages.

He contemplates making the tour to the Atlantic and Europe in February or March 1863, and will equip himself with the mineral materials, fossil remains, &c., and illustrate them by diagrams and diagrams, and a work which your publisher has in view cannot be published in this State without an extraordinary outlay, nor have we the materials artists, or skill in engraving and wood engraving. Therefore, we propose to publish a work of 100 to 500 pages, to be handsomely illustrated with colored plates, maps, &c., quarto form. The subscriber will add thereto a complete list of all the associations and companies, especially mining companies.

He goes to Europe for the purpose of seeing all the manufacturing places, machines and utensils; also the leading mining districts and metallurgical establishments, to acquire from the best sources there the best mode of treating our rich minerals, and lay these several important matters before our people through the Mining and Scientific Press, and the work he here offers. But the most important subject in his mission is the inducement he will offer to the Europeans of our immensely rich mining fields and agricultural lands, together with the great advantages offered by a liberal and protective government for industrial citizens.

The Subscriber, therefore, calls upon the citizens of the Pacific States who have the interests of our new States nearest their heart, to aid him in this enterprise, by contributing to the work, which is designed to be useful in the counting house, to the professional man, and to the citizen. The author desires to state that whatever aid or subscription he may be furnished with by the people of this State he will refund after the publication of the work, or leave the amount to be taken out in books.

Respectfully submitted,
JULIUS SILVERSMITH.
December 11, 1862-4f

BLANKS! BLANKS!
AN EXCELLENT assortment of Legal Blanks just printed at the Enquirer office, such as DEEDS, MORTGAGES, SUMMONS, EXECUTIONS, ATTACHMENTS, WARRANTS AND SUBPENAES. All the blanks printed at this office have been revised by one of the most eminent lawyers in the State.

WIRE ROPE

Is 75 Per Cent CHEAPER!

THAN ANY OTHER KIND OF ROPE—WHY?

BECAUSE, Compared with any other Rope of equal strength, it is from FOUR to SIX times MORE DURABLE!

BECAUSE, it is FORTY per cent LIGHTER!

BECAUSE, it is less than ONE HALF the Diameter, and only ONE SIXTH of the WEIGHT!

BECAUSE, it is FIVE times the strength of the same size of the HEMP ROPE!

BECAUSE, it does not STRETCH or SHRINK, in dry or wet weather!

BECAUSE, it does not ABSORB WATER, and double its original WEIGHT!

BECAUSE, it is PLIABLE as the rope of equal strength.

Wire Rope is the ONLY KIND OF ROPE that can be used to ADVANTAGE, for Hoisting from deep shafts and inclined planes, for long Pump Ropes, Derrick Ropes, Ferry Ropes, &c., &c. Those who are once given our Wire Ropes a trial will USE NO OTHER, at any price.

Cables giving scales of weights and strength, prices, testimonials, &c., will be forwarded by addressing the manufacturers, or their agents through out the State. A. S. HALLIDIE & CO., 106-108 412 Clay street, San Francisco.

MEDICAL.

DR. J. C. YOUNG,
LATE PROFESSOR AT THE UNIVERSITY

Private Medical and Surgical Establishment.

Devoted exclusively to treatment of private diseases of whatever nature, and all diseases to which (as a sex) females are liable.

No. 615 Commercial street, OPPOSITE THE MINT, SAN FRANCISCO, CAL.

CONSULTATION (by letter or otherwise) FREE.

THE NEAR APPROACH OF THIS ESTABLISHMENT to the business portion of the city, and, at the same time, its retirement, renders it easy of access and assures the patient full guarantee of security.

Dr. J. C. Young has been a practical specialist for a period of twenty years, and for twelve years on this coast, during which time his private medical and surgical institute has been in uninterrupted successful operation, discharging cured annually upwards of five thousand patients. Cures always guaranteed or no pay required.

Long practice and thorough investigation into the causes of diseases of the urinary organs, enables Dr. Young to determine clearly, and at once, the true nature of the complaint submitted to his care, requiring the patient against the dangers of delay in treatment, and which, if not often to arise from mistake, with all the advantages of a perfect knowledge gives.

General diseases, of every class and nature, cured in the most perfect, speedy, and permanent manner, without the use of mercury in any form.

Syphilis and its adjuncts, Gonorrhea, and its accompanying diseases, all disorders of the Bladder, Kidneys, and Prostate, Seminal Weakness, Diseases of the Heart and Lungs, Dropsy, Indigestion, Impotency, Incipient Consumption, &c.

Persons afflicted with symptoms after having been treated, should consult Dr. Young at once, as medicine is cured unless the patient feels perfectly well. If there is a particle of disease left in the system, it will break out again, and the patient will expect to be handed down to an innocent victim of his own errors and the disease a great deal worse than the original. All those who have reason to think, by bad feelings, that they have been treated thus, should consult Dr. J. C. Young, and he will examine their cases and tell them at once how they stand.

Consultation Free.

Of all the ailments enumerated as terrible in their array, and fearful as they are in their results, the one standing preeminent amongst them for severity and destructive effects, is that most terrible of all diseases, gonorrhea, or gonorrhea, or gonorrhea.

Those who have become the victims of solitary vice, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralyzed and emaciated victims, and which renders them helpless, should consult, without a moment's delay, one who will sympathize with their sufferings, and cure them for a moderate compensation.

Dr. J. C. Young would especially address himself to such, giving to each and all assurance of a perfect and permanent cure.

One who has experienced that growing weakness in his muscular and mental organization should stop to consider whether it arises.

It will find the weakness of the back, trembling of the limbs, and the general debility, the unaccountable falling of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by nocturnal emissions, growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, gonorrhea, or gonorrhea, or gonorrhea.

Those who have reason to think, by bad feelings, that they have been treated thus, should consult Dr. J. C. Young, and he will examine their cases and tell them at once how they stand.
